

040 Hydraulic drum lift

Hydraulic drum lift Capacity from 4.0-7.0-10.0 t. Complete with mechanical braking system. Suitable for unwinding cable on wooden or steel spools during the pulling manoeuvre of overhead wires and the laying of earth cables. Made of steel, with a design for easy transport. Lifting of drums by means of hydraulic jacks. 2 disc brakes for control and adjustment of braking power with interchangeable pads. Steel shaft on ball bearings with fixing cones.

Optional:
Hydraulic braking system
Mechanical locking system

Model	A	B	C	D	load capacity [kg]	drum dimensions [mm].	weight
040/4	1800	1400	2700	580	4000 kg	800-2800 mm	230 kg
040/7	1400	1500	2800	580	7000 kg	1000-2800 mm	280 kg
040/10	2000	1500	3400	580	10000 kg	1500-3200 mm	500 kg

Complete with hydraulic braking system, safety stops and hydraulic head connection protection. Suitable for unwinding cable on wooden or steel drums when tensioning overhead wires and laying earth cables Made of steel, with a sealed design for easy transport. Spool lifting by hydraulic jacks. 2 disc brakes with hydraulic control to control and adjust the force interchangeable brake pads. Steel shaft on ball bearings with fixing cones.

For all lifts axle 120 mm
All lifts have the same dimensions, differ in construction profile and therefore in weight

Model	A	B	C	D	E	load capacity [kg]	drum dimensions [mm].	weight
040/12	2900	1900	3900	900	2000	12000 kg	1900-3800 mm	1290kg
040/15	2900	1900	3900	900	2000	15 000 kg	1900-3800 mm	1305kg
040/18	2900	1900	3900	900	2000	18 000 kg	1900-3800 mm	1320 kg
